

# WEIGHSAFE

## WDU V SERIES

The Weighsafe WDU V series has been designed using the latest technology and includes software to enable multiple on-board weighing applications that are easy to install and use

### MORE THAN JUST A WEIGHING SYSTEM

The WDU V SERIES regardless of the application, can achieve maximum value from existing equipment by utilizing it in the most efficient manner. The key to making effective decisions is having the right equipment available. The WDU V series from WEIGHSAFE is more than just a scale. It provides an easy way to capture information on your loading process right where it takes place. It is designed to produce an accurate weight every time. The extensive features of the V series can be easily configured to suit a wide range of industries.

An ultra slim, weatherproof, micro-processor based digital weight indicator with a 25mm LED display featuring tare weight, lock and hold, accumulative weight and printing functions. Uses specifically designed "Digi Lock" weighing software.

DISTRIBUTED WORLDWIDE BY:

## WDU V SERIES

### FEATURES

- Stainless Steel (IP65 rated)
- Easy to read/user friendly
- External on/off switch
- Selectable capacity and division sizes
- Time, date - with 3 different print options
- Kg or lb unit is selectable
- Standard RS 232 output
- Clear and stable LED display
- Full digital calibration and function setting method
- Automatic zero tracking
- Selectable digital filter
- Zero, tare and print function keys
- Totalling function
- 12 Volt to 24 Volt DC operation

### OPTIONS

- In-line voltage suppressor
- Auto accumulation & printing
- Data logger
- Printer

### SPECIFICATIONS

#### CONSTRUCTION MATERIAL ENCLOSER

Stainless Steel (304 Grade)

#### H44 OPERATING RANGE

-10°C to 50°C

#### COMMUNICATION

RS 232 (Tx1, Tx2, Rx, Busy)  
for optional printer

#### DISPLAY DIGITS

5 digit 25mm segmented red LED

#### POWER/VOLTAGE

12/24 Volt DC exceeds automotive power supply transient suppression specifications

#### ACCURACY CLASS

+1/-1% of payload

#### DIMENSIONS

WDU V Series (24L x 16W x 8H cm)  
excludes mounting bracket dimensions

#### WARRANTY

12 months limited warranty on components
